

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

Claims 1-35 (cancelled).

Claim 36 (new): A lipid-bearing preparation for cosmetic uses, comprising an oil phase and a solid phase, wherein the oil phase comprises a mixture of vegetable-base raw materials.

Claim 37 (new): A lipid-bearing preparation as set forth in claim 36, wherein the vegetable-base raw materials are selected from the group consisting of vegetable oils, hydrated vegetable oils, vegetable waxes and mixtures thereof.

Claim 38 (new): A lipid-bearing preparation as set forth in claim 37, wherein the vegetable oils are selected from the group consisting of mango seed oil, meadowfoam seed oil, macadamia nut oil, shea butter, jojoba oil and mixtures thereof.

Claim 39 (new): A lipid-bearing preparation as set forth in claim 37, wherein the hydrogenated vegetable oils are selected from the group consisting of hydrogenated cottonseed oil, hydrogenated vegetable oil, hydrogenated castor oil, hydrogenated coco-glycerides, hydrogenated jojoba oil and mixtures thereof.

Claim 40 (new): A lipid-bearing preparation as set forth in claim 37, wherein the vegetable waxes are selected from the

group consisting of canauba, candelilla cera, Rhus succedanea, rice wax, sugar cane wax and mixtures thereof.

Claim 41 (new): A lipid-bearing preparation as set forth in claim 37, wherein the content of vegetable oils is in a range of between 1 and 65% by weight with respect to the total weight of the preparation.

Claim 42 (new): A lipid-bearing preparation as set forth in claim 37, wherein the content of vegetable waxes is in a range of between 0.1 and 30% by weight with respect to the total weight of the preparation.

Claim 43 (new): A lipid-bearing preparation as set forth in claim 42, wherein the content of hydrogenated vegetable oils is in a range of between 5 and 80% by weight with respect to the total weight of the preparation.

Claim 44 (new): A lipid-bearing preparation as set forth in claim 37, wherein the content of vegetable oils is in a range of between 5 and 45% by weight with respect to the total weight of the preparation.

Claim 45 (new): A lipid-bearing preparation as set forth in claim 37, wherein the content of vegetable waxes is in a range of between 1 and 20% by weight with respect to the total weight of the preparation.

Claim 46 (new): A lipid-bearing preparation as set forth in claim 42, wherein the content of hydrogenated vegetable oils is in a range of between 15 and 50% by weight with respect to the total weight of the preparation.

Claim 47 (new): A lipid-bearing preparation as set forth in claim 36, wherein the vegetable-base raw material comprises a mixture of hydrogenated jojoba oil and meadowfoam seed oil.

Claim 48 (new): A lipid-bearing preparation as set forth in claim 47, wherein the amounts of hydrogenated jojoba oil and meadowfoam seed oil are each in a range of between 2 and 35% by weight with respect to the total weight of the preparation.

Claim 49 (new): A lipid-bearing preparation as set forth in claim 47, wherein the amounts of hydrogenated jojoba oil and meadowfoam seed oil are each in a range of between 5 and 25% by weight with respect to the total weight of the preparation.

Claim 50 (new): A lipid-bearing preparation as set forth in claim 47, wherein the ratio of the amounts used of hydrogenated jojoba oil to meadowfoam seed oil is between 1:2 and 2:1.

Claim 51 (new): A lipid-bearing preparation as set forth in claim 36, wherein the solid phase is selected from the group consisting of fillers, inorganic pigments, organic pigments and mixtures thereof.

Claim 52 (new): A lipid-bearing preparation as set forth in claim 51, wherein the fillers are selected from the group consisting of talcum, kaolin, starch, modified starch, polytetrafluoroethylene powder, nylon powder, boronitride, Mg stearate, Ca stearate, Sr stearate, Zn stearate and mixtures thereof.

Claim 53 (new): A lipid-bearing preparation as set forth in claim 51, wherein the inorganic pigments are selected from the

group consisting of titanium dioxide, zinc oxide, iron oxides, chromium oxide, chromium hydroxide, ultramarine, ferric blue, mica, mica coated with titanium dioxide, mica coated with titanium dioxide and with metal oxides, bismuth oxide chloride, coated bismuth oxide chloride, metal powder in flake form of aluminum, brass, bronze, copper, silver, gold and mixtures thereof.

Claim 54 (new): A lipid-bearing preparation as set forth in claim 51, wherein the organic pigments are selected from the group consisting of lakings of organic coloring agents with aluminum, barium, calcium, strontium, zirconium and mixtures thereof.

Claim 55 (new): A lipid-bearing preparation as set forth in claim 51, wherein the amount of organic and inorganic pigments are in a range of between 1 and 50% by weight with respect to the total weight of the preparation.

Claim 56 (new): A lipid-bearing preparation as set forth in claim 51, wherein the amount of organic and inorganic pigments are in a range of between 5 and 40% by weight with respect to the total weight of the preparation.

Claim 57 (new): A lipid-bearing preparation as set forth in claim 51, wherein the amount of organic and inorganic pigments are in a range of between 10 and 30% by weight with respect to the total weight of the preparation.

Claim 58 (new): A lipid-bearing preparation as set forth in claim 55, wherein the pigments have particle sizes in the range of between 5 and 25 nm.

Claim 59 (new): A lipid-bearing preparation as set forth in claim 53, wherein titanium oxide and/or zinc oxide used as light protection agent is present as nanopigments in an amount of between 5 and 25% by weight with respect to the total weight of the preparation.

Claim 60 (new): A lipid-bearing preparation as set forth in claim 53, wherein titanium oxide and/or zinc oxide used as light protection agent is present as nanopigments in an amount of between 5 and 15% by weight with respect to the total weight of the preparation.

Claim 61 (new): A lipid-bearing preparation as set forth in claim 59, wherein the nanopigments are used in combination with oil-soluble UV-A- and UV-B-light filter substances.

Claim 62 (new): A lipid-bearing preparation as set forth in claim 61, wherein 4-methylbenzylidene camphor and isoamyl p-methoxycinnamate are used in combination with the nanopigments as UV-A- and UV-B-light filter substances.

Claim 63 (new): A lipid-bearing preparation as set forth in claim 36, wherein the preparation is provided as at least one of lip rouge, blusher, lipliner, eyeliner, eyebrow pencil, eyeshadow, makeup, covering pencil, concealer, lip care pencil, lip balm, lip gloss, fixing foundation for the lips, care foundation for the skin and as sun protection agent.

Claim 64 (new): A lipid-bearing preparation as set forth in claim 36, further comprising, as preserving agent, at least one of vegetable-based preserving agents, natural perfumes, perfumes

which are identical to nature and mixtures thereof.

Claim 65 (new): A lipid-bearing preparation as set forth in claim 64, wherein the preserving agent is present in an amount of between 0.05 and 1.0% by weight with respect to the total weight of the preparation.

Claim 66 (new): A lipid-bearing preparation as set forth in claim 65, wherein the preserving agent comprises at least one of an oil-soluble dry extract of rosemary and glyceryl caprate.

Claim 67 (new): A lipid-bearing preparation as set forth in claim 65, wherein the preserving agent contains perfumes which were selected from the group consisting of geraniol, linalool, neroli, vanillin, eugenol, methyleugenol, palmarosa oil and mixtures thereof.

Claim 68 (new): A lipid-bearing preparation as set forth in claim 36, wherein the preparation is in the form of a stick glued into wood.

Claim 69 (new): A lipid-bearing preparation as set forth in claim 36, wherein the preparation is in the form of a cast into a plastic casing sleeve.

Claim 70 (new): A lipid-bearing preparation as set forth in claim 36, wherein the preparation is in the form of a stick, cast into a rotary spindle mechanism.

Claim 71 (new): A lipid-bearing preparation as set forth in claim 36, wherein the preparation is in the form of a paste introduced into a tube or a pot.

Claim 72 (new): A lipid-bearing preparation as set forth in claim 36, wherein the preparation is in the form of a paste introduced into a bowl of metal.

Claim 73 (new): A method of producing a cosmetic pencil according to claim 36, wherein a preparation including shaping the preparation by casting to form a lead and further processed to form a pencil.

Claim 74 (new): A method as set forth in claim 73, including casting into a rotary mechanism.

Claim 75 (new): A method as set forth in claim 73, including casting into wood, glued and processed to form a pencil.

Claim 76 (new): A storage stable cosmetic mass comprising a combination of hydrogenated jojoba oil and meadowfoam seed oil.
